

Your patient has expressed interest in the ReBuilder® to help manage their neuropathic pain. ReBuilder has delivers clinically proven relief through physiologically precise neuroelectric stimulation™. FDA-cleared and endorsed by City of Hope (formerly Cancer Treatment Centers of America), ReBuilder is trusted by thousands of providers worldwide for its effectiveness in managing neuropathy symptoms.

The ReBuilder uses a proprietary combination of waveform, pulse width, and frequency to relieve painful neuropathy symptoms, promote healing in the extremities, and support long-term nerve health by:

- Promoting increased local blood circulation
- Relieving chronic intractable pain
- Preventing muscle disuse atrophy

Used for 30-minute sessions, twice daily, 94–96% of users report improvement within 90 days. It is safe for home use and offers a non-pharmacologic, non-invasive approach to symptom management—with no known side effects when used as directed. Clinical studies are available at rebuildermedical.com/evidence.

Available Models:

ReBuilder 300:

- Single output
- Pre-set to 7.83 Hz (Schumann resonance frequency)
- Ideal for treating one area (e.g., hands or feet)
- User-friendly and effective for most patients

ReBuilder 2407:

- Dual outputs for simultaneous treatment of multiple areas (e.g., hands and feet)
- Includes EMS and TENS modes for broader treatment versatility
- Suitable for patients with more complex or widespread symptoms

How to Prescribe:

The ReBuilder is available by prescription only. To proceed, please fax a prescription including the following information to **304-725-4915**:

- Patient's full name, date of birth, and phone number
- Diagnosis code (e.g., diabetic neuropathy, chemo-induced neuropathy, etc.)
- The description: ReBuilder, brand specific, no substitutions
